ABOUT JPM INTERNATIONAL

With over 40 years in the Office & Display industry, JPM International is a leading Australian owned importer and distributor operating from Bayswater, Victoria.

OUR REPUTABLE NAME IS BASED ON 3 CORE VALUES:

Product

To provide an extensive range of cost effective, innovative and high quality display solutions adhering to current design trends and consumer demand.

Service

Exceptional customer service with sound industry knowledge and experience. We help you every step of the way in the decision process, so you get exactly what you're after. Quick and efficient dispatch makes certain your items arrive promptly.

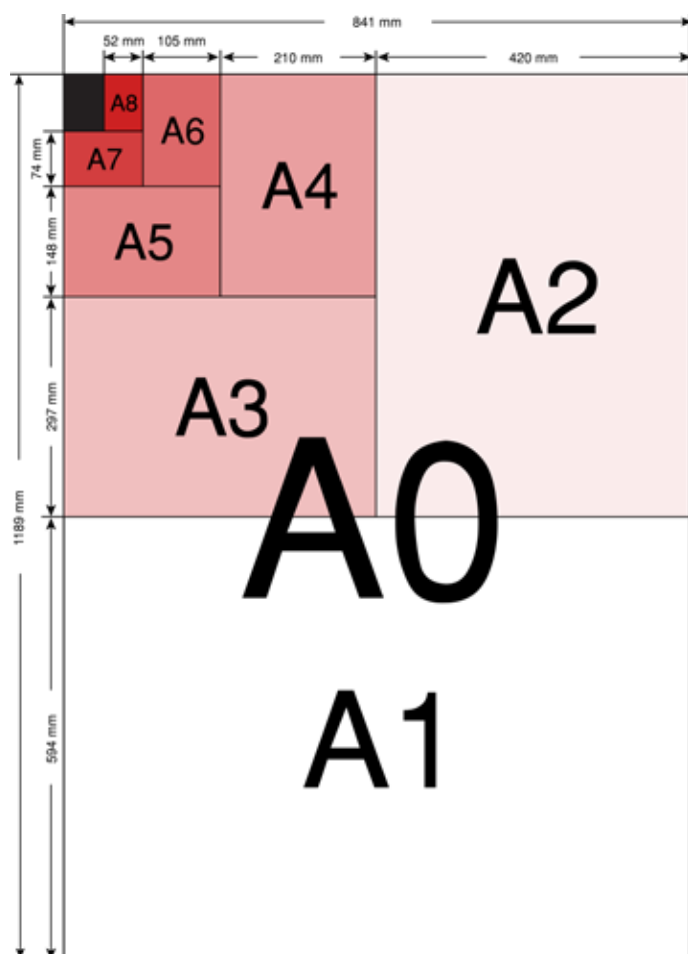

Price

JPM's exclusive global distribution agreements ensure genuine value for our customers. Our mission is to grow and foster stakeholder relationships.

What size products do I need?

Pocket sizes are guided by paper sizes.
Please refer to our paper size diagram below:

How durable are your products in comparison to glass displays?

Under normal conditions our perspex, plastic and acrylic products are superior in durability in comparison to glass. They are a lightweight, safe and cost effective alternative.

Can you provide custom made products?

We can get items specifically made through our quality accredited manufacturing plant in China. Please contact your sales representative for enquiries.

*MOQ's (Minimum Order Quantities) & pricing involved.

Can we get products screen printed?

Yes, we can personalise our office & display products to suit your needs.
Email info@jpmark.com.au for estimated lead times and quotes.

How do I assemble your portable displays?

Our portable displays have been specifically designed for simplicity and easy mobility. The concertina exhibition displays effortlessly expand, lock into place and collapse with ease. Other products including foyer brochure stands are constructed using minimal pieces for easy assembly. No tools are necessary.

Are carry cases included with your exhibition displays?

Carry cases come with the following products:

- DR1003
- DR1004
- DR1006
- DR1007
- DR3003

Do you include screws for your wall mounted products?

Since the products can be affixed to multiple surface types, we do not supply the hardware for all mounted products. We do carry brackets for slat walls (model no: 2375) that can be attached (purchased separately).

What are the turnaround times for orders?

We do our best for on time delivery – however, orders sent after 12 pm are not guaranteed to leave that day.
