deflecto

DEFLECTO, A NAME RECOGNISED AROUND THE WORLD

Our Promise To You:

Customer Service

We provide exceptional customer service with expert industry knowledge and experience.

Expert Knowledge

Having a wide range of ventilation products, we pride ourselves on our extensive range of industry knowledge and technical material.

Sell The Best

Our products have been designed using high-quality, innovative and cost-effective materials.

Fast & Secure Delivery

Using the best frieght services in Australia, you can expect trackable, secure and rapid delivery on your purchase.

What are the benefits of ventilating my home?

Our venting kits help decrease the risk of fire and vermin, control moisture residue and encourage fresh air into the home. This creates a more comfortable, energy-efficient and healthier environment for you and your loved ones.

Does your ducting comply with Australian Standards?

Yes, we comply with the following Australian Standards:

Semi Rigid Ducting:

- Australian & New Zealand Standards AS43826
- 4-Zero fire rating to Australian Standards AS150.3

Flexible Ducting:

- Australian Standards AS1688.1
- 4-Zero fire rating to Australian Standards AS150.3

Rectangular Ducting:

 BCA vol 1 with reference to AUS/NZ Standards AS 4254-1995

Insulated Ducting:

 Australian & New Zealand Standards AS/NZS 4859.1

How do I Install your ventilation products?

Installation guides are available for all our kits included with your purchase. For complex installations, we recommend consulting a licensed professional.

Where can I find Technical/Specification Sheets for your products?

We have a wide range of technical sheets for our products.. You can find our technical sheets on our website: www.ventilation.jpmbrands.com.au/spec-sheets

Do your External Vents comply with a Bushfire Attack Level?

Our Mushroom Roof Cowls, Dome, Eave, Hooded, Gravity and Fixed Louvre Stainless Steel vents all comply with BAL40 (Bushfire Attack Level) when supplied cinder mesh insert is used with the outlet. Please look for the icon on the right.

What diameter do your rangehood ventilation products come in?

Our rangehood ventilation products come in 100mm, 125mm, 150mm and 200mm Anything larger than 200mm is considered to be commercial ventilation.

What are the turnaround times for orders?

Destination	ETA
VIC	1 - 2 Business Days
NSW Metro	1 - 2 Business Days
ACT	3 - 4 Business Days
SA Metro	1 - 2 Business Days
QLD Metro	2 - 3 Business Days
WA Metro	4 - 5 Business Days
TAS	4 - 5 Business Days

Is my order trackable once it has been created?

Yes, once your order has been dispatched, JPM receives tracking information reagrding the progress of your order. If you have concerns about a late delivery, please don't hesitate to contact us, and we will investigate the issue immediately.

For More Information Please Visit Our Website: www.jpmbrands.com.au

Roof Venting Kits

Efficiently expel unwanted fumes and odours from your rangehood through the roof via a mushroom cowl.

Features

- Complies to Australian and New Zealand Standards: AS43826
- Superior temperature rating of -70°C to +200°C
- Semi Rigid Ducting keeps its shape when formed into place
- Modern mushroom cowl provides greater protection from birds, rain and rust

Extra Information

- Extend reach with additional duct, sleeve and clamps (see pages 40-45)
- Installation by a professional is recommended

PLEASE NOTE: Kits On Page 5 Are Not Supplied With Roof Specific Flashing (See Page 43)

Rangehood Roof Venting Kit - 125mm

Components:

- RMC5M Roof Mushroom Cowl with Mesh (125mm)
- GSPS052430 Deflecto Clip-Seam Pipe (125mm x 610mm)
- AO503M Deflecto Semi Rigid Duct (125mm x 3M)
- MC5/2 Deflecto Worm Drive Duct Clamp (125mm) 2 Pack
- BRACE Galvanised Steel Bracing Strap (1M)
- Rivets & Drill Bits

Model No.	Product	Diameter (mm)	Outlet
RHK125T	Rangehood Vent Kit - Roof	125mm	Aluminium

Rangehood Roof Venting Kit - 150mm

Components:

- RMC6M Roof Mushroom Cowl with Mesh (150mm)
- GSPS062430 Deflecto Clip-Seam Pipe (150mm x 610mm)
- AO603M Deflecto Semi Rigid Duct (150mm x 3M)
- MC6/2 Deflecto Worm Drive Duct Clamp (150mm) 2 Pack
- BRACE Galvanised Steel Bracing Strap (1M)
- Rivets & Drill Bits

Model No.	Product	Diameter (mm)	Outlet
RHK150T	Rangehood Vent Kit - Roof	150mm	Aluminium

Rangehood Roof Venting Kit - 200mm

- RMC8M Roof Mushroom Cowl with Mesh (200mm)
- GSPS082430 Deflecto Clip-Seam Pipe (200mm x 610mm)
- AO803M Deflecto Semi Rigid Duct (200mm x 3M)
- MC8/2 Deflecto Worm Drive Duct Clamp (200mm) 2 Pack
- BRACE Galvanised Steel Bracing Strap (1M)
- Rivets & Drill Bits

Model No.	Product	Diameter (mm)	Outlet
RHK200T	Rangehood Vent Kit - Roof	200mm	Aluminium

Eave Venting Kits

Externally vent your rangehood through the ceiling and out the eave using either a plastic or stainless steel vent.

Features

- Complies to Australian and New Zealand Standards: AS43826
- Superior temperature rating of -70°C to +200°C
- Semi Rigid Ducting keeps its shape when formed into place
- UV stabilised plastic grille vent with removable front grille and mesh for easy cleaning
- ONLY the Stainless Steel Eave vents complies with BAL40 (Bushfire Attack Level), when used with supplied cinder mesh insert

Extra Information

- Extend reach with additional duct, sleeve and clamps (see pages 40-45)
- Installation by a professional is recommended

Rangehood Eave Venting Kit - 125mm

Components:

- HGV5 Deflecto Grille Vent with Screen (125mm) OR EVSS125 - Eave Vent Stainless Steel with Mesh (125mm)
- AO503M Deflecto Semi Rigid Duct (125mm x 3M)
- MC5/2 Deflecto Worm Drive Duct Clamp (125mm) 2 Pack

Model No.	Product	Diameter (mm)	Outlet
RHK125E	Rangehood Vent Kit - Eave	125	Plastic
RHK125ESS	Rangehood Vent Kit - Eave	125	Stainless Steel

Rangehood Eave Venting Kit - 150mm

Components:

- HGV6 Deflecto Grille Vent with Screen (150mm) OR EVSS150 - Eave Vent Stainless Steel with Mesh (150mm)
- AO603M Deflecto Semi Rigid Duct (150mm x 3M)
- MC6/2 Deflecto Worm Drive Duct Clamp (150mm) 2 Pack

Model No.	Product	Diameter (mm)	Outlet
RHK150E	Rangehood Vent Kit - Eave	150	Plastic
RHK150ESS	Rangehood Vent Kit - Eave	150	Stainless Steel

Rangehood Eave Venting Kit - 200mm

- HGV8 Deflecto Grille Vent with Screen (200mm) OR EVSS200B - Eave Vent Stainless Steel with Mesh (200mm)
- AO803M Deflecto Semi Rigid Duct (200mm x 3M)
- MC8/2 Deflecto Worm Drive Duct Clamp (200mm) 2 Pack

Model No.	Product	Diameter (mm)	Outlet
RHK200E	Rangehood Vent Kit - Eave	200	Plastic
RHK200ESS	Rangehood Vent Kit - Eave	200	Stainless Steel

Wall Venting Kits

Externally vent your rangehood through the ceiling and out the wall using either a gravity louvred plastic or stainless steel vent.

Features

- Complies to Australian and New Zealand Standards: AS43826 & 4-Zero fire rating to AS150
- Superior temperature rating of -70°C to +200°C
- Semi Rigid Ducting does not lose shape when bent into place
- UV stabilised polypropylene plastic louvred vent
- ONLY the Stainless Steel Wall vents complies with BAL40 (Bushfire Attack Level), when used with supplied cinder mesh insert

Extra Information

Extend reach with additional duct, sleeve and clamps (see pages 40-45)

Rangehood Wall Venting Kit - 125mm

Components:

- HSR5W Deflecto Gravity Wall Vent (125mm) OR GVSS125 - Gravity Wall Vent Stainless Steel with Mesh (125mm)
- AO503M Deflecto Semi Rigid Duct (125mm x 3M)
- MC5/2 Deflecto Worm Drive Duct Clamp (125mm) 2 Pack

Model No.	Product	Diameter (mm)	Outlet
RHK125W	Rangehood Vent Kit - Wall	125	Plastic
RHK125WSS	Rangehood Vent Kit - Wall	125	Stainless Steel

Rangehood Wall Venting Kit - 150mm

Components:

- HSR6W Deflecto Gravity Wall Vent (150mm) OR GVSS150 - Gravity Wall Vent Stainless Steel with Mesh (150mm)
- AO603M Deflecto Semi Rigid Duct (150mm x 3M)
- MC6/2 Deflecto Worm Drive Duct Clamp (150mm) 2 Pack

Model No.	Product	Diameter (mm)	Outlet
RHK150W	Rangehood Vent Kit - Wall	150	Plastic
RHK150WSS	Rangehood Vent Kit - Wall	150	Stainless Steel

Rangehood Wall Venting Kit - 200mm

- HS8W Deflecto Gravity Wall Vent (200mm) OR GVSS200B - Gravity Wall Vent Stainless Steel (200mm)
- AO803M Deflecto Semi Rigid Duct (200mm x 3M)
- MC8/2 Deflecto Worm Drive Duct Clamp (200mm) 2 Pack

Model No.	Product	Diameter (mm)	Outlet
RHK200W	Rangehood Vent Kit - Wall	200	Plastic
RHK200WSS	Rangehood Vent Kit - Wall	200	Stainless Steel

Universal Venting Kits: Roof

The universal venting kits are ideal for single ventilation requirements that have both $125\,\&\,150$ mm outlets.

(E.g. 125mm rangehood & a 150mm outlet through the roof)

Features

- Complies to Australian and New Zealand Standards: AS43826 & 4-Zero fire rating to AS150.3
- Superior temperature rating of -70°C to +200°C
- Includes 125 to 150mm duct increaser/decreaser
- Roof specific flashing included in the kits
- · Semi Rigid Ducting does not lose shape when bent into place
- · The Mushroom Cowl provides greater protection from birds, rain and rust

Extra Information

- Extend reach with additional duct, sleeve and clamps (see pages 40-45)
- Installation by a professional is recommended

Universal Rangehood Metal Roof Kit

Components:

- RMC6M Roof Mushroom Cowl with Mesh (150mm)
- GSPS062430 Deflecto Clip-Seam Pipe (150mm x 610mm)
- KFM36 Kensington Flashing Metal Roof (76mm 150mm)
- AO603M Deflecto Semi Rigid Duct (150mm x 3M)
- A0503M Deflecto Semi Rigid Duct (125mm x 30cm)
- DIRB65 Deflecto Duct Increaser/Reducer (125mm to 150mm)
- MC6/2 Deflecto Worm Drive Duct Clamp (150mm) 2 Pack
- MC5/2 Deflecto Worm Drive Duct Clamp (125mm) 2 Pack
- LDE30 Lancaster D/Ended Panel Drill & Rivets
- BRACE Galvanised Steel Bracing Strap (1M)

Model No.	Product	Diameter (mm)	Outlet
RHKMR65	Universal Rangehood Vent Kit - Metal	125 & 150	Roof

Universal Rangehood Tile Roof Kit

- RMC6M Roof Mushroom Cowl with Mesh (150mm)
- GSPS062430 Deflecto Clip-Seam Pipe (150mm x 610mm)
- KFT38 Kensington Flashing Tile Roof (76mm 203mm)
- AO603M Deflecto Semi Rigid Duct (150mm x 3M)
- A0503M Deflecto Semi Rigid Duct (125mm x 30cm)
- DIRB65 Deflecto Duct Increaser/Reducer (125mm to 150mm)
- MC6/2 Deflecto Worm Drive Duct Clamp (150mm) 2 Pack
- MC5/2 Deflecto Worm Drive Duct Clamp (125mm) 2 Pack
- LDE30 Lancaster D/Ended Panel Drill & Rivets
- BRACE Galvanised Steel Bracing Strap (1M)

Model No.	Product	Diameter (mm)	Outlet
RHKTR65	Universal Rangehood Vent Kit - Tile	125 & 150	Roof

Universal Venting Kit: Wall & Eave

The Universal Wall/Eave Rangehood Kit is ideal for single ventilation requirements that have both 125 & 150mm outlets.

(E.g. 125mm rangehood & a 150mm wall/eave outlet or vice-versa)

Features

- Complies to Australian and New Zealand Standards: AS43826 & 4-Zero fire rating to AS150.3
- Superior temperature rating of -70°C to +200°C
- Includes 125 to 150mm duct increaser/decreaser
- UV stabilised plastic grille vent with removable front grille and mesh for easy cleaning
- Semi Rigid Ducting does not lose shape when formed into place

Extra Information

- Extend reach with additional duct, sleeve and clamps (see pages 40-45)
- Installation by a professional is recommended

Universal Wall/Eave Rangehood Kit

Components:

- HGV6 Deflecto Grille Vent with Screen (150mm)
- AO603M Deflecto Semi Rigid Duct (150mm x 3M)
- A0503M Deflecto Semi Rigid Duct (125mm x 30cm)
- DIRB65 Deflecto Duct Increaser/Reducer (125mm to 150mm)
- MC6/2 Deflecto Worm Drive Duct Clamp (150mm) 2 Pack
- MC5/2 Deflecto Worm Drive Duct Clamp (125mm) 2 Pack

Model No.	Product	Diameter (mm)	Ducting
RHKE65	Universal R/Hood Kit - Wall/Eave	125 & 150	Semi Rigid Aluminium

Rangehood Rectangular to Round Adaptor

- Suit rectangular outlets 130mm (W) x 290mm (D) or less
- Full aluminium construction for maximum fire and corrosion protection
- Alcohol wipe for surface cleaning prior to attachment
- Fire retardant/heat resistant adhesive included

Model No.	Product	Diameter (mm)	Dimensions W x H x D (mm)	Carton Qty
RHA5	R/Hood Adaptor	125	130 x 110 x 290	12

Rangehood Flange Adaptor

- Made from Galvanised Steel for maximum fire protection
- Two options available for 125 & 150mm outlets
- Alcohol wipe for surface cleaning prior to attachment
- Fire retardant/heat resistant adhesive ring

Model No.	Product	Diameter (mm)	Dimensions	Carton Qty
RHF5R	Flange Adapt 125mm	125	13mm flange x 50mm (H)	1
RHF6R	Flange Adapt 150mm	150	13mm flange x 50mm (H)	1

RHF5R

Rectangular Ducting

This range offers a low profile rectangular ducting alternative to standard round aluminium ducting and is ideal for installations with minimal space allowances.

Features

- Light-weight self-extinguishing PVC complies with BCA vol 1 with reference to AUS/NZ standards AS4254-1995
- 204 x 60mm replacement for 125-150mm round ducting
- Modular components slide together for easier installation
- White ducting that can be painted to blend in with existing decor

Rectangular Flat Duct

• Flat pack channel duct piece

Model No.	Product	Carton Qty
FD2001	Flat-pack Duct - 1M	1
FD2002	Flat-pack Duct - 2M	1

Rectangular Duct Connector

• Connects two rectangular duct pieces for extended length

Model No.	Product	Carton Qty
FD2003	Duct Connector	1

PLEASE NOTE: Due to the Length of FD2002, This Item Will Incur Freight Manual Handling Charges

45° Horizontal Bend

• Connects to a channel duct and re-directs air at a 45° angle

Model No.	Product	Carton Qty
FD2004	45° Horizontal Bend	1

90° Horizontal Bend

• Connects to channel duct and re-directs air at a right angle

Model No.	Product	Carton Qty
FD2005	90°Horizontal Bend	1

45° Vertical Bend

• Connects to a channel duct and re-directs air at a 45° angle

Model No.	Product	Carton Qty
FD2006	45° Vertical Bend	1

Horizontal T-Piece

· Connects to channel duct and re-directs air

Model No.	Product	Carton Qty
FD2008	Horizontal T-Piece	1

90° Bend Spigot Adaptor

- 150mm spigot for optional offset attachment of round vertical pipe or ducting
- Dimensions: 204mm x 60mm, 150mm Diameter

Model No.	Product	Carton Qty
FD2009	150mm 90° Fixed Bend	1

Round to Flat Straight Adaptor

• Connects to 125mm round outlets and converts to channel duct

Model No.	Product	Carton Qty
FD2010	Rnd - Flat Apt.	1

Flat Duct Wall Plate

- Covers any imperfections from the cut-out in the wall or ceiling
- Provides an attractive finish to the ventilation system.

Model No.	Product	Carton Qty
FD2011	Wall Plate	1

Flat Duct Clip (Metal)

- Secures ducting to the wall or ceiling
- Simply screw the clip in then click the ducting into place

Model No.	Product	Carton Qty
FD2013	Flat Duct Clip (Metal)	1

Circular Reducer/Expander

• Connects to rangehood outlet and reduces/expands diameter for attachment of elbow bend or circular ducting

Model No.	Product	Joins (mm)	Material	Carton Qty
FD2014	Circular Reducer/Expander	100 - 125	Plastic	1
FD2015	Circular Reducer/Expander	100 - 150	Plastic	1
FD2016	Circular Reducer/Expander	125 - 150	Plastic	1
FD2017	Circular Reducer/Expander	150 - 200	Plastic	1

Dryer Venting System (DVS)

Deflecto clothes dryer venting solutions are engineered for health, safety and energy efficiency. Clothes dryer venting removes lint, moisture and mildew from building up. This reduces structural damage, the risk of fire and keeps your home cleaner.

Further benefits include decreased electricity usage as drying times are quicker and more efficient.

PLEASE NOTE: Clothes dryer ventilation kits & components have a diameter of 100mm suiting most current dryer models and applications.

Inlet/Outlet Kit

Ideal for dryers backing onto an external wall.

Features:

- Offers 360° installation option that fits under wall bracket
- 275mm inlet/outlet centre to centre reach

Components:

- DVSI Deflecto Dryer Vent Sys. Inlet Duct
- DVSWO Deflecto Dryer Vent Sys. Wall Outlet
- DVSTP Deflecto Dryer Vent Sys. Tape Discs
- DVSSC Deflecto Dryer Vent Sys. Saddle Clamp
- DVSGR Deflecto Dryer Vent Sys. Gasket Ring
- 361TAPE Cloth Tape Includes double sided adhesive pads for wall mount option.

Model No.	Product	Diameter (mm)
DVS2	Dryer Vent Sys Inlet/Outlet Kit	100
M D - E	d - d 11-i DVC C	D 46 47) A

May Be Extended Using DVS Components (Pages 16-17) And Vented Outside Using A DVS1 - Through The Wall Kit (Page 14)

Rectangular to Round Kit

This kit reaches the nearest edge of the dryer, where it is continued via flexible duct and any DVS external ducting option.

Features:

- Top, side or bottom installation options
- 275mm reach from inlet centre to machine's edge

- DVSI Deflecto Dryer Vent Sys. Inlet Duct
- DVSE Deflecto Dryer Vent Sys. Elbow (45°)
- DVSO Deflecto Dryer Vent Sys. Outlet
- DVSSC Deflecto Dryer Vent Sys. Saddle Clamp
- DVSGR Deflecto Dryer Vent Sys. Gasket Ring
- 361TAPE Cloth Tape Includes double sided adhesive pads for wall mount option.

Model No.	Product
DVS3	Dryer Vent Sys Inlet/Outlet Kit

Through the Wall Kit

Accepts dryer exhaust from in-laundry ducting option and vents outside.

Features:

- Used in conjunction with an in-laundry ducting option
- Back-flow control eliminates the entry of birds and vermin
- The wall plate also accepts DVSWO (waste outlet)

Components:

- DVSWP Deflecto Dryer Vent Sys. Wall Plate (with Plug)
- HSR4W Deflecto Gravity Wall Vent (100mm) OR
 GVSS100 Gravity Wall Vent Stainless Steel with Mesh (100mm)
- DP411S Deflecto Aluminium Clip-Seam Pipe (100mm x 280mm)

Model No.	Product	Diameter (mm)
DVS1	Dryer Vent Sys Wall Kit (Plastic)	100
DVS1SS	Dryer Vent Sys Wall Kit (Stainless Steel)	100

DVS1

DVS1SS

Corner Duct Kit

Suits dryers positioned on an internal wall that need to navigate around a 90° corner to ventilate outside through a secondary wall, eave or roof.

Features:

- Top, side or bottom installation options
- 275mm reach from inlet centre to machine's edge
- 1250mm maximum reach from inlet centre to wall corner
- Use with DVS1 to vent the dryer outside through an external wall
- Use with DVS4 to vent the dryer outside via the eave
- Use with DVS6 to vent the dryer outside via the ceiling

- DVSI Deflecto Dryer Vent Sys. Inlet Duct
- DVSE Deflecto Dryer Vent Sys. Elbow (45°)
- DVSC Deflecto Dryer Vent Sys. Corner Duct
- DVSWO Deflecto Dryer Vent Sys. Wall Outlet
- DVSD Deflecto Dryer Vent Sys. Duct (x3)
- DVSSC Deflecto Dryer Vent Sys. Saddle Clamp
- DVSGR Deflecto Dryer Vent Sys. Gasket Ring
- 361TAPE Cloth Tape

Model No.	Product	Diameter (mm)
DVS5	Dryer Vent Sys Corner Duct	100

Ceiling to Eave Kit

Accepts dryer exhaust from in-laundry ducting option and securely vents outside.

Features:

- Back-flow control eliminates the entry of birds and vermin
- DVSWP Wall plate accepts DVSWO (wall outlet)
- Offers 2.7 metre reach from ceiling outlet to eave

Components:

- DVSWP Deflecto Dryer Vent Sys. Wall Plate (with Plug)
- EVE Deflecto Under-Eave Vent (75mm 125mm)
- AO403M Deflecto Semi Rigid Duct (100mm x 3M)
- MC4/2 Deflecto Worm Drive Duct Clamp (100mm) 2 Pack

Model No.	Product	Diameter (mm)
DVS4	Dryer Vent Sys Eave	100

Ceiling to Roof Kit

Accepts dryer exhaust from in-laundry ducting option and vents outside through the roof via a mushroom cowl (roof specific flashing sold separately see page 39).

Features:

- Includes a rectangular to round diverter that fits under a standard wall mounting bracket for side/top venting
- Wall Plate accepts DVSWO (low profile duct) as a push-fit 3 metre reach from ceiling outlet to roof

- DVSWP Deflecto Dryer Vent Sys. Wall Plate (with Plug)
- RMC4M Roof Mushroom Cowl with Mesh (100mm)
- AO403M Deflecto Semi Rigid Duct (100mm x 3M)
- GSPS042430 Deflecto Clip-Seam Pipe (100mm x 610mm)
- BRACE Galvanised Steel Bracing Strap (1M)
- MC4/2 Deflecto Worm Drive Duct Clamp (100mm) 2 Pack

Model No.	Product	Diameter (mm)
DVS6	Dryer Vent Sys Roof	100

DVS - Adaptor (100mm Spigot)

Designed to connect the DVSWP - Wall Plate to 100mm flexible ducting system.

- Made from flame retardant, self-extinguishing plastic
- Turns and locks into the wall plate for secure attachment.

Model No.	Product	External Size (mm)
DVSA	DVS Adaptor	99 Diameter x 75 Length

DVS - Low Profile Corner Duct

Designed to extend the DVS ducting system around internal corners, re-directing air at a 90° angle.

- Made from flame retardant, self-extinguishing plastic
- Lightly sand and paint to match laundry decor

Model No.	Product	External Size (mm)
DVSC	DVS Corner Duct	195 (W) x 47 (D)

DVS - Low Profile Extension Duct

Extends the DVS ducting system by 300mm and is designed to fit between the dryer and the wall.

- Made from flame retardant, self-extinguishing plastic
- · Lightly sand and paint to match laundry decor

Model No.	Product	External Size (mm)
DVSD	DVS Extension Duct	195 (W) x 340 (L) x 47 (D)

Extends the DVS ducting system at a 45° angle and is designed to fit between the dryer and the wall.

- Made from flame retardant, self-extinguishing plastic
- · Lightly sand and paint to match laundry decor

Model No.	Product	External Size (mm)
DVSE	DVS Elbow	195 (W) x 235 (L) x 47 (D)

DVS - Self-Adhesive Gasket Ring

A double-sided, heat-resistant adhesive ring designed to secure the DVSI or DVSU around a dryer outlet or vent.

• Supplied with the 316 Tape for an extra level of security

Model No.	Product	External Size (mm)
DVSGR	DVS Gasket Ring	175/135 x 7

DVS - Low Profile Inlet Duct

Connects dryers with a flush rear outlet and starts the DVS ducting system.

· Made from flame retardant, self-extinguishing plastic

Model No.	Product	External Size (mm)
DVSI	DVS Inlet Duct	95 (W) x 240 (L) x 47 (D)

DVS - Low Profile Outlet (100mm)

Converts the DVS ducting system to a 100mm round outlet, allowing for the connection of flexible ducting.

· Made from flame retardant, self-extinguishing plastic

Model No.	Product	External Size (mm)
DVSO	DVS Outlet	195 (W) x 175 (L) x 47 (D)

DVS - USA Style Adaptor Cone

Attaching to the DVSI, the adaptor will connect with appliances that have male rear or spigot-type outlets.

 Internal cone diameter tapers from 104mm front to 99mm rear

Model No.	Product	External Diameter
DVSU	DVS USA Adaptor	175mm rear flange

DVS - Low Profile Waste Outlet

Designed to connect the DVS system ducting system to the DVSWP to continue the system externally.

- Flame retardant, self-extinguishing plastic
- 100mm x 40mm spigot

Model No.	Product	External Size (mm)
DVSWO	DVS Waste Outlet	195 (W) x 240 (L) x 47 (D)

DVS - Saddle Clamp

Designed to mount and secure the DVS components on the wall or ceiling surface.

- · Features three screw slots for attachment
- Features two 23mm Lugs on either end

Model No.	Product	External Size (mm)
DVSSC	DVS Saddle Clamp	25 (W) x 190 (L)

DVS - Low Profile Waste Inlet

Designed to adapt dryer outlets with a 100mm internal cavity diameter to a rectangular ducting system.

- Flame retardant, self extinguishing plastic
- Internal cone diameter tapers from 104mm to 99mm (rear)

Model No.	Product	External Size (mm)
DVSWI	DVS Waste Inlet	190 (W) x 200 (L) x 43 (D)

Wall Plate and Dryer Spigot Adaptor

The Deflect Wall Plate is a versatile component that can serve as a flush-fitting wall plate or a suitable dryer outlet adaptor when used with the DV4K.

Model No.	Product	Outer Flange	Carton Qty
DVSWP	DVS Wall Plate/Plug	101mm	1
DB4K	Dryer Back Adaptor Kit	101mm	1

Dryer Diverter Assembly

Use on rear vented dryers where the centre of the outlet is within 160mm of the edge of the machine. Transfers into a 100mm round outlet for attaching flexible ducting. Fits under a standard wall mounting bracket for side/top venting.

Components:

- DS4 Deflecto Saddle Clamp Dryer Divertor
- DV4 Deflecto Dryer Vent Diverter Pipe
- GR4 Deflecto DV4 Gasket Ring

Model No.	Product	Dimensions (mm)	Carton Qty
DV4A	Dryer Diverter Assembly	150 (W) x 350 (L) x 42 (D)	1

Dryer Internal Lint Trap

Fits directly onto dryers with a rear spigot-type outlet. Features a uniquely designed water bath trap where the fine lint missed by the dryer filter is collected on the water surface. Combine with DVS3 or DV4A diverter kits for dryers with flush outlet hole.

Components:

- LTF Deflecto Dryer Intern Lint Trap C/W Duct
- FO4 Deflecto Supurr-Flex Duct (100mm x 1M)
- CB34 Plastic Cable Ties (x2)

Model No.	Product	Carton Qty
LTF	Dryer Internal Lint Trap	1

Dryer Lint Trap with Dryer Diverter Assembly

A combination of the dryer diverter assembly and the dryer internal lint trap kits (above). Complete with a rear diverter pipe, it also transfers into a 100mm round outlet for attaching flexible ducting using a uniquely designed water bath trap.

Components:

- LTF Deflecto Dryer Intern Lint Trap C/W Duct
- FO4 Deflecto Supurr-Flex Duct (100mm x 1M)
- DV4A Deflecto Dryer Diverter Assembly
- CB34 Plastic Cable Ties (x2)

Model No.	Product	Carton Qty
LTKA	Dryer Lint Trap W/Dryer Diverter Assembly	1

Universal Through the Wall Kit

Designed to rear vent a dryer through an outside wall, this kit includes a rectangular to round diverter that fits under a standard wall mounting bracket for side/top venting.

- HS4WJ Deflecto Gravity Wall Vent Suits Solid Flange Duct (100mm)
- DP411S Deflecto Aluminium Clip-Seam Pipe (100mm x 280mm)
- FO408B Deflecto Supurr-Flex Duct (100mm X 2.4M)
- DV4A Deflecto Dryer Diverter Assembly
- CB34 Plastic Cable Ties (x2)

Model No.	Product	Outlet	Carton Qty
DK4W	Universal Through the Wall Kit	Wall	6

All Fisher & Paykel Dryer Ventilation Kits are specifically designed for Fisher & Paykel Dryers. Clothes dryer ventilation components have a diameter of 100mm suiting most current dryer models.

Fisher & Paykel Dryer Vent Kit - Wall

This kit is ideal for dryers backing onto an external wall.

Components:

- DVSFP Deflecto Dryer Vent Outlet (F&P)
- DVSD Deflecto Dryer Vent Sys. Duct
- DVSWO Deflecto Dryer Vent Sys. Wall Outlet
- GR4 Deflecto DV4 Gasket Ring
- 361TAPE Cloth Tape

Model No.	Product	Outlet	Carton Qty
DVKFPW	Dryer Vent Kit - Wall	Wall	1

Fisher & Paykel Dryer Vent Kit - Short

This kit reaches the nearest edge of the dryer where you can continue to duct using FO408B Flexible Ducting.

Components:

- DVSFP Deflecto Dryer Vent Outlet (F&P)
- DVSE Deflecto Dryer Vent Sys. Elbow (45°)
- DVSO Deflecto Dryer Vent Sys. Outlet
- GR4 Deflecto DV4 Gasket Ring
- 361TAPE Cloth Tape

Model No.	Product	Outlet	Carton Qty
DVKFPS	Dryer Vent Kit - Short	Wall	1

Fisher & Paykel Dryer Vent Kit - Long

This kit reaches the longest edge of the dryer where you can continue to vent using FO408B Flexible Ducting.

- DVSFP Deflecto Dryer Vent Outlet (F&P)
- DVSE Deflecto Dryer Vent Sys. Elbow (45°)
- DVSD Deflecto Dryer Vent Sys. Duct (x2)
- DVSO Deflecto Dryer Vent Sys. Outlet
- GR4 Deflecto DV4 Gasket Ring
- 361TAPE Cloth Tape

Model No.	Product	Outlet	Carton Qty
DVKFPL	Dryer Vent Kit - Long	Wall	1

COMPLETE YOUR HOME WITH OUR

ALL-IN-ONE CEILING EXHAUST FAN KITS

Our Ceiling Exhaust Fan Kits

New from Deflecto, the Ceiling Exhaust Fan Kits will efficiently extract fumes and air from your bathroom/kitchen through either the wall, roof or eave cavity, providing superior ventilation and comfort in your home or workplace.

Designed to exhaust and reduce unwanted mould and moisture.

- Exhaust Fans have whisper-quiet ball-bearing motors.
- Both Exhaust Fans have a built in Draft Blocker.
- Efficiently exhaust with our Standard Fan rated at 270 m³/hr
- or the Quiet Boost Fan rated at 400 m³/hr.

Available for Wall, Eave, Metal and Tile Roof ventilation applications. Complies with all NCC and AS/NZS Standards.

Scan For More Information

22

The Standard Ceiling Exhaust Fan is an all in one exhaust fan with an outstanding performance, capacity and sound. The Standard Fan is rated 270³m/hr and will efficiently expell unwanted mositure and odours outside via the ducting and exhaust vent.

Ceiling Exhaust Fan Standard Wall/ Eave Kit

Components:

- CEF200 Ceiling Exhaust-Fan (150mm)
- HGV6 Deflecto Grille Vent with Screen (150mm))
- FO603M Deflecto Supurr-Flex Duct (150mm x 3.6M)
- MC6/2 Deflecto Worm Drive Duct Clamp (150mm) 2 Pack

Model No. Product

CEF200WE Deflecto Standard Ceiling Exhaust Fan - Wall/Eave Kit

Ceiling Exhaust Fan Standard Metal Roof Kit

Components:

- CEF250 Ceiling Exhaust-Fan (150mm)
- RMC6M Roof Mushroom Cowl with Mesh (150mm)
- GSPS062430 Deflecto Clip-Seam Pipe (150mm x 610mm)
- KFM36 Kensington Flashing Metal Roof (76mm 150mm)
- FO603M Deflecto Supurr-Flex Duct (150mm x 3.6M)
- MC6/2 Deflecto Worm Drive Duct Clamp (150mm) 2 Pack
- BRACE Galvanised Steel Bracing Strap (1M)
- Rivets & Drill Bits

CEF200TR	Deflecto Standard Ceiling Exhaust Fan - Tile Roof Kit

Offering itself as a premium alternative, the Quiet Boost or "QB"

Ceiling Exhaust Fan is as powerful as it is quiet. The QB Fan is rated 400³m/hr

and will efficiently expell unwanted mositure and odours

outside via the ducting and exhaust vent.

Ceiling Exhaust Fan Quiet Boost "QB" Wall/ Eave Kit

Components:

- CEF250QB Quiet Boost Ceiling Exhaust-Fan (150mm)
- HGV6 Deflecto Grille Vent with Screen (150mm))
- FO603M Deflecto Supurr-Flex Duct (150mm x 3.6M)
- MC6/2 Deflecto Worm Drive Duct Clamp (150mm) 2 Pack

Our Heat Transfer Kits

Heat Transfer Kits utilise and distribute existing warm air from a room with a single heat source (such as a fire or pot belly stove) to colder rooms within the home using an inline-fan.

Designed for safety, the kits come supplied with Australian Standards (AS/NZS 4859.1) approved fire-rated insulated ducting and the inline-fan shuts off in case of an electrical fault.

V

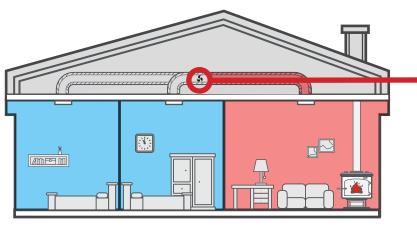

Efficiently distributes existing warm air to up to 3 rooms.

Supplied with Australian Standard Approved insulated ducting.
Inline fan costs under 5¢ to run per kWh (based on HTK2 inline fan).

Available Kits: 1 to 1 Room Kit, 1 to 2 Room Kit & 1 to 3 Room Kit. Complies with all NCC and AS/NZS Standards.

Scan For More Information

We strongly suggest that a qualified electrician install one of our Heat Transfer Kits.

Gradually the inline-fan will warm the colder rooms creating a more temperature balanced house.

1 to 1 Room Kit

Components:

- FT150F Lightweight Inline-Fan (150mm)
- TFG6 Deflecto Ceiling Diffuser/Intake (150mm)
- DJ150 Deflecto Downjet Outlet (150mm)
- D603M Rt.06 Insulated Ducting (150mm x 3M)
- D606M Rt.06 Insulated Ducting (150mm x 6M)
- MC6/2 Deflecto Worm Drive Duct Clamp (150mm) 2 Pack (x2)

FT150F FTPRO150F FTPRO200F

FT Series Inline-Fan

The FT series of inline-fans are suitable for expelling or supplying cold or warm air in areas such as bathrooms, toilets, ensuites and homes. Designed for safety, the fans are fitted with a one-shot thermal fuse, that switches off in the event of an electrical fault. All fans have a 1-year warranty from installation.

Features:

- The FT150F is lightweight with a robust aluminium fan housing and high strength steel axial impellers.
- The FTPRO150F & FTPRO200F have two-speed settings for airflow control, a removable body for maintenance and an integrated mounting foot for easier installation. All fans can be mounted in any position.

Model No.	Product	Diameter (mm)	Carton Qty
FT150F	Mini-tube Inline-Fan	150	1
FTPRO150F	Pro-vent Inline-Fan	150	1
FTPRO200F	Pro-vent Inline-Fan	200	1

Professional installation recommended

DJ200

DJ250

Downjet Diffuser

The downjet ceiling diffuser evenly streams air to a chosen area. Simple to install, it comes with spring loaded attachment arms that lock and secure the vent in place.

Features:

• Outlet vents can be closed by pushing in and turning the central control knob to activate the internal butterfly damper.

Model No.	Product	Colour	Inner Diameter	Outer Diameter	Carton Qty
DJ150	Downjet Diffuseer Outlet	White	150mm	240mm	1
DJ200	Downjet Diffuseer Outlet	White	200mm	290mm	1
DJ250	Downjet Diffuseer Outlet	White	250mm	340mm	1

CD200

CD150

Ceiling Diffuser

Commonly used for air intake, our Ceiling Diffuser has adjustable airflow control for general air intake or exhaust. Accepts air from surrounding areas and not directly below. Ideally suited for heat, smoke and vapour extraction/transfer.

Features:

- 180° airflow spread
- Adjustable inverted centre cone centre for desired airflow control
- Designed for easy installation and removal for cleaning

Model No.	Product	Colour	Inner Diameter	Outer Diameter	Carton Qty
CD150	Ceiling Diffuser/Intake	White	150mm	270mm	1
CD200	Ceiling Diffuser/Intake	White	200mm	320mm	1
CD250	Ceiling Diffuser/Intake	White	250mm	395mm	1
CD300	Ceiling Diffuser/Intake	White	300mm	440mm	1

TFG6

MV125PFS

Euro Style Diffuser

Commonly used for air intake, the ceiling diffuser accepts air from surrounding surfaces making it ideal for warm air extraction/transfer.

Features:

- Plastic construction
- 180° airflow spread
- Adjustable inverted centre cone centre for desired airflow control
- Designed for easy installation and removal for cleaning

Model No.	Product	Inner Diameter	Outer Diameter	Carton Qty
TFG4	Euro Ceiling Diffuser/Intake	100mm	150mm	6
*MV125PFS	Euro Ceiling Diffuser	125mm	170mm	20
TFG6	Furo Ceiling Diffuser/Intake	150mm	200mm	6

*Limited Stock Available of MV125PFS Will Be Discontinued Once Stock Runs Out

Budget Metallic Flexible Ducting

This Flexible Ducting is surrounded by metallic installation and is used in air transfer situations only. The metallic flexible ducting must not be used in rangehood or clothes dryer venting.

Model No.	Product	Diameter	Length	Carton Qty
SL430	Budget Metallic Flexible Duct	100mm	3M	1
SL530	Budget Metallic Flexible Duct	125mm	3M	1

Polycarbonate Floor Vents

Our range of polycarbonate vents comes in 8 designer colours to suit any colour scheme. Constructed from polycarbonate plastic and featuring triple air dampers to provide streamlined airflow and control. The vents can be adjusted by simply sliding the middle dampner. All vents have a 5-year replacement warranty.

Features:

- Maintenance and rust-free
- Dishwasher safe

Air Deflectors

Premium Unbreakable Air Deflector:

Improve heating efficiency and comfort by directing air across the floor and away from furniture and curtains. Constructed from premium clear polycarbonate, the air deflectors are unbreakable under normal use.

Large Air Deflector:

The Large Air Deflector is adjustable length (250 - 400mm) to deflect air for larger vents and is suitable for floor or wall use.

Air Deflector:

Improve heating efficiency and comfort by directing air across the floor and away from furniture and curtains.

Features:

Vents

Complement your project with a wide range of inlet and outlet vents. From Stainless Steel to UV resistant polypropylene plastic.

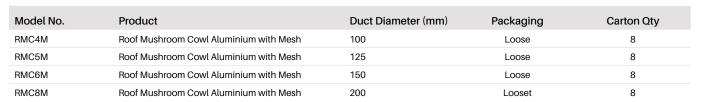

Roof Mushroom Cowl - Aluminium

The RMC range offers the highest protection from rain, back drafts and rodents with a unique and stylish design. The Cowl slips over the roof pipe to prevent rainwater from running down the inside of the pipe.

The Cowl is made of Aluminium with the cover's thickness being 1 mm and the neck being 0.6mm. The mesh is made of 304 stainless steel and **complies with BAL40 (Bushfire Attack Level).**

- · Efficient air/exhaust expulsion
- Suitable for roof ventilation only

PLEASE NOTE: The Roof Mushroom Cowl's Matches With Our GSPS & PPS Coded Clip-Seam Piping (See Page 43)

Cinder Mesh Insert

Manufactured from quality 304 grade stainless steel with less than 0.2mm openings, the inserts suit stainless steel venting applications and **complies with BAL40 (Bushfire Attack Level).**

Features:

Use the insert to block pests and vermin from entering ventilation systems where the
existing vents do not have mesh.

Model No.	Product	Diameter Size (mm)	Packaging	Carton Qty
IMA100	Cinder Mesh Insert	100	Retail	20
IMA125	Cinder Mesh Insert	125	Retail	20
IMA150	Cinder Mesh Insert	150	Retail	20
IMA200	Cinder Mesh Insert	200	Retail	20

Eave Vent - Marine Grade Stainless Steel

The EVSS range are ideal for under eave ventilation, featuring a flush face. The open mesh makes them suitable for wall or ceilings as an inlet/outlet vent.

The Eave is made from quality 316 Marine Grade Stainless Steel. The Eave also **complies with BAL40 (Bushfire Attack Level),** as the vent is supplied with a cinder mesh insert.

Features:

- Screws and Rubber seal included
- Egg-crate style grille to prevent pests and vermin from entering the system

Model No.	Product	Duct Diameter (mm)	External Dimensions (mm)	Packaging	Carton Qty
EVSS100	Kensington Eave Vent Stainless Steel	100	145	Retail	3
EVSS125	Kensington Eave Vent Stainless Steel	125	185	Retail	3
EVSS150	Kensington Eave Vent Stainless Steel	150	210	Retail	3
EVSS200B	Kensington Eave Vent Stainless Steel (Bulk)	200	265	Loose	24

Gravity Louvre Vent - Marine Grade Stainless Steel

The GVSS range is designed to allow airflow to be released by opening the Louvres and then closing them when not in use. This keeps the vent closed during wind, and drafts and prevents pests and vermin from entering the system.

The Louvre is made from quality 316 Marine Grade Stainless Steel. The Louvre also **complies with BAL40 (Bushfire Attack Level)**, as the vent is supplied with a cinder mesh insert.

Features:

• Screws and Rubber seal included

Model No.	Product	Duct Diameter (mm)	External Dimensions (mm)	Packaging	Carton Qty
GVSS100	Kensington Gravity Vent Stainless Steel	100	155 (W) x 155 (L)	Retail	3
GVSS125	Kensington Gravity Vent Stainless Steel	125	185 (W) x 185 (L)	Retail	3
GVSS150	Kensington Gravity Vent Stainless Steel	150	185 (W) x 185 (L)	Retail	3
GVSS200B	Kensington Gravity Vent Stainless Steel	200	265 (W) x 265 (L)	Loose	12

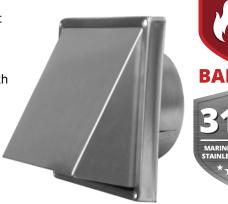

Hood Vent - Marine Grade Stainless Steel

The HVSS features an internal gravity flap allowing air to be expelled, whilst stopping cold air and pests from entering the system.

The Hood is made from quality 316 Marine Grade Stainless Steel. The Hood also **complies with BAL40 (Bushfire Attack Level)**, as the vent is supplied with a cinder mesh insert.

Features:

- · Angle design for snow and heavy rain regions
- · Screws and Rubber seal included

Model No.	Product	Duct Diameter (mm)	External Dimensions (mm)	Packaging	Carton Qty
HVSS100	Kensington Hood Vent Stainless Steel	100	155 (W) x 155 (L) x 80 (D)	Retail	3

HVSS150	Kensington Hood Vent Stainless Steel	150	185 (W) x 185 (L) x 90 (D)	Retail	3

Dome Vent - Marine Grade Stainless Steel

The DVSS range is designed for a high level of protection against weather elements and can be used as an inlet or an outlet vent.

The Dome is made from quality 316 Marine Grade Stainless Steel. The Dome also **complies with BAL40 (Bushfire Attack Level)**, as the vent is supplied with a cinder mesh insert.

Features:

- Screws and Rubber seal included
- · Curved design for snow and heavy rain regions

Model No.	Product	Duct Diameter (mm)	External Dimensions (mm)	Packaging	Carton Qty
DVSS100	Kensington Dome Vent Stainless Steel	100	155 (W) x 80 (D)	Retail	3
DVSS125	Kensington Dome Vent Stainless Steel	125	185 (W) x 90 (D)	Retail	3

DVSS200B	Kensington Dome Vent Stainless Steel (Bulk)	200	260 (W) x 105 (D)	Loose	12

Fixed Louvre Vent - Stainless Steel

The FLSS range is designed to allow airflow in both directions whilst preventing rain from entering the system.

The Louvre is made from quality 304 Grade Stainless Steel. The Louvre also **complies with BAL40 (Bushfire Attack Level)**, as the vent is supplied with a cinder mesh insert.

Features:

· Screws and Rubber seal included

Model No.	Product	Duct Diameter (mm)	External Dimensions (mm)	Packaging	Carton Qty
FLSS125B	Kensington Fixed Louvre Vent Stainless Steel	125	175 (W) x 175 (L)	Loose	24

Under Eave Vent - Plastic

The under eave vent offers venting for ducting diameters up to 125mm. When there is no mechanical air movement, the damper closes off preventing vermin and back draft entry.

The Plastic Under Eave is made of UV resistant polypropylene plastic to withstand Australian climates.

Model No.	Product	Duct Diameter (mm)	Dimensions (mm)	Carton Qty
EVE	Under-Eave Vent	75 - 125	180 (W) x 260 (L) x 60 (D)	6

Gravity Louvre Vent - Plastic

The HSR range allows air to be released by opening the Louvres and closing them when not in use. The curved design of the louvres is specially engineered to prevent wind and drafts from entering, while also acting as a barrier to pests.

Constructed from UV-resistant polypropylene plastic, these vents are built to withstand Australia's harsh climate, ensuring long-lasting durability. In addition to the classic design, we now offer a brand-new range in sleek black, making it a perfect choice for modern, contemporary homes.

Features:

- · Rounded edges with mounting holes in each corner
- 25mm deep rear spigot for ducting attachment.

Fixed Grille Vent with Screen - Plastic

The HGV range is our most versatile outlet vent as it can be used for a through the wall application or an under the eave application. This Fixed Grille includes a built-in flyscreen to prevent pests from entering your home's internal systems.

The Fixed Grille is made of UV-resistant polypropylene plastic to withstand the Australian climate. In addition to the classic design, we now offer a brand-new range in sleek black, making it a perfect choice for modern, contemporary homes.

BRAND NEWBlack Fixed Grille
Polyprop Exhaust Vents

Features:

- Rounded edges with mounting holes in each corner
- Includes a fly-screen

Aluminium Double Sided Door Grille

Facilitates airflow between rooms and assists in relieving pressure when the door is closed. Constructed from anodised aluminium, the vents are anti-corrosive and preserve appearance for minimal maintenance. The two-piece design simply clips together, eliminating the use of screws for easy installation.

Features:

- Suitable for doors 30-45mm thick
- Durable lightweight construction
- Anodised coating does not flake or peel
- Angled louvres provide privacy

Model No.	Product	Hole Dimensions (mm)	Packaging	Carton Qty

Plastic Door Grille Set

Facilitates airflow between rooms and assists in relieving pressure when the door is closed. The two grilles screw together for door mounting.

Features:

- Plastic construction
- Suitable for doors 27-45mm thick
- Angled louvres provide privacy

Model No.	Product	Hole Dimensions (mm)	Packaging	Carton Qty
6145	Door Vent Plastic	435 (W) x 75 (H)	Retail - Two Pieces	12

Plastic Single Sided Door/Wall Grille Vent

Facilitates airflow and air conditioning between rooms and assists in relieving pressure when the door and windows are closed. Use two MV450 on opposite sides of the door or wall for general ventilation. Use one or two adjustable MV450R for airflow control.

Features:

- Plastic construction
- Suitable for doors 27-45mm thick

Model No.	Product	Hole Dimensions (mm)	Packaging	Carton Qty
MV450R	Door Vent Plastic - Open or Close	435 (W) x 90 (H)	Bulk	12

Round Cupboard Vent

Push in round vent with horizontal open grilles, making them suitable for enclosed appliances such as fridges and clothes dryers that require ventilation.

Model No.	Product	Size (mm)	Rear Flange Diameter (mm)	Packaging	Carton Qty
MV50/2BVS	Round Vent Horizontal	60	48	2 Pack	40
C40/2W	Cupboard Vent	60	40	2 Pack	1

Multi-Directional Outlet - Ceiling

Allows air to be directed when and where required. The aerodynamically curved blades fully adjust to smoothly open or close in unison. Simple to maintain, the grille sections are designed to be easily removed for cleaning and eliminate noise by clipping into the main diffuser housing. Featuring a flush face, the vents blend in with the existing decor.

Features:

- Plastic construction
- Suitable for heating and cooling exhaust
- Adjustable grilles allows you to customise air direction
- Simple to clean and maintain

Two Way Multi-Directional Outlet

Features:

- Suits 150 or 200mm ducting
- Add 50mm to hole size for face size

Model No.	Product	Uses Adaptor	Hole Size (mm)
MDO602	Two Way Multi-Directional Outlet	M603 or M604	230 x 230

PLEASE NOTE: Requires "M Series Adaptor" To Match The Supply Duct (See Page 40)

Four Way Multi-Directional Outlet

Features:

- Suits 150, 200, 250 or 300mm ducting
- Add 50mm to hole size for face size

Model No.	Product	Uses Adaptor	Hole Size (mm)
MDO601	Four Way Multi-Directional Outlet	M603 or M604	230 x 230
MDO611	Four Way Multi-Directional Outlet	M612, M613 or M614	310 x 310
MDO621	Four Way Multi-Directional Outlet	M614, M622 or M623	360 x 360
MDO631	Four Way Multi-Directional Outlet	M632 or M633	395 x 395

PLEASE NOTE: Requires "M Series Adaptor" To Match The Supply Duct (See Page 40)

Six Way Multi-Directional Outlet

Features:

- Suits 400, 450 or 500mm ducting
- Add 50mm to hole size for face size

Model No.	Product	Uses Adaptor	Hole Size (mm)
MDO641	Six Way Multi-Directional Outlet	M642, M643 or M644	390 x 585
MDO651	Six Way Multi-Directional Outlet	M652 or M653	360 x 535

PLEASE NOTE: Requires "M Series Adaptor" To Match The Supply Duct (See Page 40)

Square Egg Crate Grille

Features:

- Fixed grille vent for intake or exhaust air
- Suits 150, 200, 300, 350 and 400 ducting
- Add 50m to hole size for face size

Model No.	Product	Uses Adaptor	Hole Size (mm)
EG600	Egg Crate Grille	M603 or M604	230 x 230
EG625	Egg Crate Grille	M622, M623 or M624	360 x 360

PLEASE NOTE: Requires "M Series Adaptor" To Match The Supply Duct (See Page 40)

EG625

'M Series' Duct Adapters

The 'M Series' duct adaptors are designed to connect the multi-directional vents to ducting. The adaptor goes from square to round, the square side securely clips into the multi-directional vent frame whilst the round shape connects to the ducting.

Features:

- Plastic construction
- Simple maintenance

Return Air Grille

Used to draw air into a heating or cooling system, the return air grilles can be positioned in the ceiling or wall. The single-piece constructed return air grilles are capable of carrying high airflow and operate quietly. A scratch and chip-resistant plastic frame suits high-traffic areas. Available with a filter option for better air quality control.

Features:

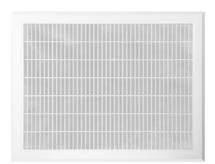

• Injection-molded plastic

Unfiltered			
Model No.	Product	Colour	Hole Size (mm)

PLEASE NOTE: When using the Mounting Frame, the Adaptor Box is not required with using the Mounting Frame.

Roof Flashing

Keep water from seeping and causing structural damage by using roof flashing to direct the flow of water away from the pipe opening. The flashing stretches over the penetration and forms a tight seal. Designed for Australian conditions, the low profile bases provide resistance to weathering and easily conform to roof profiles and pitches for simple installation.

Flashing for Metal Roof

Features:

- EPDM rubber with aluminium trim
- Temperature rating of -50°C and up to 115°C
- Lower square base covers larger openings, more forgiving for penetration openings and steeper roof pitch
- Clear markings in metric and imperial measurements

Flashing for Tile Roof

Features:

- · Lead free aluminium base and EPDM rubber top
- Temperature rating of -50°C and up to 115°C
- Clear markings in metric and imperial measurements
- Paintable to match roof colour (after applying a standard etched primer)

Clip-Seam Pipe

Made from 30 gauge galvanised steel, the unique clip-seam has a smooth internal finish for maximum airflow efficiency. Both seams connect together at one end and work up the length to form a solid pipe. Crimped end offers a male connection to pipe or ducting.

Semi Rigid Ducting

Supplied in a compressed length, this form of Semi Rigid Ducting expands and holds its shape and full diameter even when bends are applied. Constructed from continuous spiral bound aluminium, the ducting is self supportive needing only minimal fittings or mechanics each end for additional support. Ideal for straight and indirect venting installations for clothes dryers, rangehoods, bathrooms and other general venting applications.

Features:

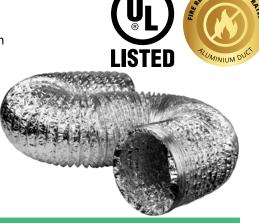

- Complies with Australian Standards AS1668.1
- 4 Zero fire rating to Australian Standards 1530.3
- Temperature rating -70 °C to +220 °C
- Manufactured material thickness 0.89mm

Flexible Ducting

Flexible multi-layered metallic ducting is ideal for general purpose ventilation and can be easily navigated around tight bends. The multi-purpose ducting can be used for low to medium pressure exhaust venting of bathrooms, electric clothes dryers and other applications.

- Complies with Australian Standards AS1668.1
- 4 Zero fire rating to Australian Standards 1530.3
- Temperature rating -18 °C to +130 °C
- Manufactured material thickness 0.89mm

Insulated Ducting

Australian Made Flexible silver/black core ducting surrounded by white polyester insulation. Supplied in a strong, silver foil outer sleeve to help minimise the effects of external conditions on internal duct temperatures.

Features:

- Complies with AS/NZS 4859.1
- Insulated with allergen-free polyester fibre
- Keep taut for maximum airflow efficiency
- Rated operating temperature rating: -10°C to +80°C
- Rated operating pressure: 100 Pa positive, 200 Pa negative

Level Rt 0.6 Insulated

Use Rt 0.6 thermal rating for warm or cool air transfer where there is no direct connection to a heater or cooler.

		3M Length

Duct Connectors

Duct connecting sleeves are used to extend the length of flexible and/or Semi Rigid Ducting. Simply place a matching size metal worm drive clamp over the end of the ducting, insert one end of the sleeve into the ducting, position the clamp and tighten.

Features:

- Constructed from galvanised steel
- Compatible with all duct types
- Simple installation

Increaser/Reducers

A secure way to increase/decrease duct size in gradual staged sections to minimise back flow pressures when increasing/decreasing diameters.

Features:

- Internally smooth to maximise airflow
- Ducting can be clamped or riveted

DIRB65

DIRB86

Model No.	Product	Joins (mm)	Length (mm)	Material	Carton Qty
DIRB54	Duct Increaser	100 - 125	120mm	Aluminium	4
DIRB64	Duct Increaser	100 - 150	-	Aluminium	4
DIRB65	Duct Increaser	125 - 150	150mm	Aluminium	4
DIRB86	Duct Increaser	150 - 200	180mm	Aluminium	4

Adjustable Elbows - 0° to 90°

Adjustable elbows are used to make turns in Semi Rigid Ducting up to 90°. Each section easily rotates and is constructed from galvanised steel providing protection against fire and corrosion.

Features:

• Ducting can be clamped or riveted

Model No.	Product	Diameter (mm)	Material	Carton Qty
ELB049030	Adjustable Elbow	100	Galvanised Steel	1
ELB059030	Adjustable Elbow	125	Galvanised Steel	1
ELB069030	Adjustable Elbow	150	Galvanised Steel	1
ELB089030	Adjustable Elbow	200	Galvanised Steel	1

Please Note: The Adjustable Elbows Can Be Used In Conjunction With Clip-Seam Piping (See Page 39)

Draft Blockers

In-line draft blockers assist in preventing back flow from entering ventilation systems. Ideally installed in rangehood ventilation exhausting out through the roof. Manufactured with an internal spring-loaded butterfly damper, the damper opens when air passes through and closes when the venting system is not in use.

Features:

• Install at regular intervals to ensure there is no blockage

DBV125

DBV200

Model No.	Product	Diameter (mm)	Length (mm)	Material	Carton Qty
DBV100	Draft Blocker	100	88	Galvanised Steel	1

DBV125	Draft Blocker	125	88	Galvanised Steel	1
DBV150	Draft Blocker	150	88	Galvanised Steel	1
DBV200	Draft Blocker	200	88	Galvanised Steel	1

Metal Worm Drive Duct Clamps

Metal worm drive clamps are the most effective way to attach ducting to a fitting. Eliminates the use of tape or cable ties that over time can become loose from excessive air pressures, temperature or condensation.

Features:

- Stainless steel construction
- Easy to use
- Single piece construction

Model No.	Product	Diameter	Packaging	Carton Qty
MC4/2	Metal Worm Drive Duct Clamps - 100mm (2 pack)	Up to 114mm	Retail - 2 pack	12
MC5/2	Metal Worm Drive Duct Clamps - 125mm (2 pack)	Up to 139mm	Retail - 2 pack	12
MC6/2	Metal Worm Drive Duct Clamps - 150mm (2 pack)	Up to 165mm	Retail - 2 pack	12
MC8/2	Metal Worm Drive Duct Clamps - 200mm (2 pack)	Up to 216mm	Retail - 2 pack	6

CRA

Stainless Steel Clamp on Roll

Used in conjunction with a locking device, the stainless steel clamp allows any size worm drive clamp to be made up on site, eliminating the inconvenience of carrying various sizes on site.

Features:

- 30M x 9mm x 0.6 roll of stainless steel band in per-calibrated ABS plastic dispenser
- Quick and easy system
- · Locking mechanism
- SCA Low carbon steel nickel plated
- Screw 7mm cross slotted hex head in galvanised steel

Model No.	Product	Length (M)	Pack of
CRA	Stainless Steel Clamp Band on Roll - 30M	30	-
SCA	Stainless Steel Clamp Band With Locking Screws	-	50 (25 pairs)

Dryer Vent Cleaning Brush

Designed to clean ducting removing dangerous lint build-up, reducing drying time and extending dryer life.

Has three flexible detachable rods that can bend around ducting for efficient cleaning.

Features:

- Can be attached to a drill for more effective cleaning
- includes 2.4 Metre Rods
- Easy to use
